

ABOUT THE APPLICATION

Due to the lack of ruby on rails environment in our group, we committed on a batch manner wherein there are many file and codes updated in the Git account. All of the members help on their own way and best :).

GOING TO ADMIN PAGE

The administrator page was developed using the gem 'admin' to go to the administration page go to the URL

<http://localhost:3000/admin/708419>

GOING TO THE LOGIN PAGE

The admin will give the username and password to the parent of the school , to go in the login page access

<http://localhost:3000/students>

We create an existing sample account to our teacher:

Email : jsixto@gmail.com ***The parent*******

Password : 12345678
